

# Be part of it, get bouldering

## The code

- Chipping holds is cheating you & future climbers of the challenge
- Clean holds with brushes that don't damage the rock
- Use bouldering mats to reduce ground erosion & vegetation damage
- Climb with clean, dry rock shoes to avoid mud building up on the holds
- Keep chalk use to a minimum & brush off afterwards when possible
- Dry holds with a clean cloth & consider not climbing on soft rock when wet when holds may snap off
- Remove all litter when you leave
- Follow the Scottish Outdoor Access Code: [www.outdooraccess-scotland.com](http://www.outdooraccess-scotland.com)

Scotland offers some of the world's best bouldering. Help us keep it that way...

ClimbScotland is an initiative of the Mountaineering Council of Scotland, supported with funding from sportscotland
